Professional Summary

Frontend Developer with 1.4 years of professional experience in web designing and UI development. Skilled in React.js, Redux Toolkit, JavaScript, and Bootstrap for building responsive and user-friendly web applications. Strong understanding of modern design principles and UX-focused interfaces.

Work Experience

Frontend Developer | Techsaga Corporations (July 2024 - Present)

- Designed and developed **responsive**, visually appealing web applications using React.js, Redux Toolkit, and Bootstrap.
- Implemented **reusable components** and managed application state for scalable architecture.
- Translated **Figma wireframes** into interactive, user-friendly UI layouts.
- Integrated REST APIs with Axios and ensured smooth data rendering.
- Optimized **frontend performance** and page load speed for better UX.

Projects

Project Handler App - (React + Context API)

- Built a Project Handler system with React.js implementing features like project upload, assignment tracking, and role-based user authorization for efficient team collaboration.

Post Manager App - (React + Redux Toolkit)

- Built a CRUD app to create, edit, and delete posts using React state and Redux Toolkit for centralized data handling.
- Integrated REST APIs with Axios and tested endpoints via Postman.

Clinic CRM

- Designed and developed a responsive CRM interface for managing appointments and patient records using HTML, CSS, Bootstrap, and JavaScript.
- Enhanced UX with interactive components and optimized UI performance.

Ridnova Website

- Created a fast and responsive website layout using HTML, CSS, Bootstrap, and JavaScript.
